## BIG ANNIVERSARY CELEBRATION IS SUCCESS

August 24, 1936, Co. 4451 celebrated its first anniversary. The celebration began at noon and lasted until late in the evening.

This affair was featured with many types of athletics, such as boxing, base-ball, volley ball, and other types of sports to show the public the kind of recreation that is offered to the C.C.C. youth.

At an early hour in the evening all visitors and friends gathered in the dining hall for dinner. Before eating, a short and interesting history of Co. 44-51 was given by Fred Hunter, our former assistant educational adviser. After the address a splendid dinner was served.

At 8:00 all eyes were turned to the Recreational Hall where the dance was taken place. It was thrilling to see the fans shuffling away to the tunes of the Dixieland Four, a local band from Perry, Florida.

The dance was featured with a contest between three of the fans best dancers. Clifford Whipper, a member of the company was awarded first prize. Kernit Saunders gave the fans a few steps in tap dancing.

There were visitors from all of the near by towns. A group of men from the

## PLANS BEING MADE FOR TALKING PICTURE

The Co. is now making plans to secure a sound projector "TALKING PICTURES" to be shown in the Recreational Hall one night each week.

Some of the leading pictures are included on the list, also "Pop Eye" and "Buddy Bop" comedies.

This machine will also be used for educational films which are sent out from Corps Area.

In the past the Company has been without the necessary machinery for showing of pictures. It is hoped that every member of the company will co-operate to the end--and we will go over the top.

### FIND SOMETHING TO ENJOY

That is a fair start on spare-time activities! You can enjoy something that is worth while. For real pleasure find a hobby. Often, in following a hobby, you will become very skillful. Your hobby can be used for the entertainment and enjoyment of others.

One enrollee in a certain camp was skillful at impersonations. He took off the Camp Commander, the mess sergeant, and others. Soon he was recognized as a tip-top Camp entertainer. He became so good until he got a radio contract. Now he was a very desirable vaudeville contract. He could not impersonate when he entered camp, but he enjoyed mimicking people in camp and soon learned. He acquired excellence—great skill, and turned it to good account in camp and, later, vocationally. Any worth while thing if done well stands a good chance of becoming commercially valuable.

### WHAT IS THE AVERAGE C.C.C. EMPLOYEE DOING WITH HIS EARNED DOLLAR?

While sitting down in a quiet place recently a thought came to me which asked me in this manner, "what is the average C.C.C. employee doing with his earned dollar? Presently it was a question I could not answer.

Twenty five years from today the average C.C.C. employee will be forty five years of age. He is of an age then where he should get plenty of rest or in other words live in solitude.

That particular time of life there will be no C.C.C. for him to be a member of. If there will be such an organization, his age will not permit him to be in service.

Therefore use your time well. Get an object in view. Learn to preserve your earnings for a later day. If you do you will not become a human parasite to man.

### YOUR CAMP APPEARANCE

The good camp has a good recreational hall and a good outdoor space or field for sports and games. If your camp lacks these advantages, turn in and help make the recreational hall and athletic field as nearly perfect as imagination and hard work can make them. It is your camp.

\*\*\*\*\*

### A WORLD OF YOUR OWN

The C.C.C. is something new. The C.C.C. camp is more than just a place to live. It is more than just a job to tide you over until you find a better job. The C.C.C. Camp really is a small world of its own. Much that you find in camp you will find also in the larger world outside. What you learn in the C.C.C. will apply outside the Camp just as much as in the camp. Are you learning anything?
